SAM Corporate to Launch SAMESG® Lite at Singapore FinTech Festival 2025

Singapore, 12th November 2025

The Singapore FinTech Festival (SFF) has become one of the world's most influential platforms for conversations at the intersection of finance, technology, sustainability, and regulation. Each year, it brings together policymakers, industry leaders, innovators, and solution providers to address the shifts shaping the future of global businesses.

At the Singapore FinTech Festival (SFF) 2025, SAM Corporate, a global advisory and technology firm, will share its perspective on how sustainability can become more accessible, decision-focused, and scalable for businesses of all sizes. Over the years, SAM Corporate has supported large enterprises and financial institutions through its ESG reporting platform, SAMESG®, enabling audit-ready disclosures aligned with global standards such as ISSB, GRI, SGX, CSRD, BRSR, and more.

Building on this foundation, SAM Corporate will introduce the next step in its ESG vision, SAMESG® Lite. The solution will be officially launched at SFF on 12 November, from 10:30 AM to 10:55 AM, at the gprnt Booth (6B29), Hall 6B. The launch will be led by Dr. Sunil Kumar, Managing Director and Co-Founder of SAM Corporate, along with Deepika Chawla, Head of APAC.

The launch of SAMESG® Lite marks a key step in SAM Corporate's mission to make sustainability adoption practical and accessible across all business sizes. Designed for organizations at the early stages of their ESG journey, SAMESG® Lite enables companies to calculate and report Scope 1, 2, and 3 emissions using standardized, globally recognized methodologies.

By simplifying emission reporting, SAMESG® Lite helps bridge the gap between ESG ambition and implementation. The solution provides SMEs and value chain partners with a structured, guided entry point into sustainability disclosure—helping them align with customer requests,

supply chain requirements, and evolving compliance expectations.

The unveiling of SAMESG® Lite at SFF reinforces SAM Corporate's broader 360° approach, which integrates technology and advisory services across ESG, Corporate Performance Management, regulatory reporting, and BFSI advisory. The company's presence at the event underscores its commitment to enabling organizations to make informed, connected, and future-ready decisions.

About SAM Corporate

SAM Corporate is a global advisory and technology firm that enables organizations to achieve 360° visibility across sustainability, finance, and risk. We help businesses embed ESG into strategy, optimize financial performance, and strengthen governance through a unified ecosystem of platforms and advisory solutions.

Our award-winning ESG platform, SAMESG®, simplifies sustainability management through automation, analytics, and assurance-ready reporting. Our CPM solution empower finance teams to plan, consolidate, and perform with precision and our CCH® Tagetik support service helps to optimize, maintain & scale your Tagetik environment for continuous improvement. Through our BFSI advisory, we help financial institutions enhance risk frameworks, capital planning, and regulatory compliance, while our regulatory reporting and managed support services ensure organizations stay efficient, compliant, and future-ready.

With a presence across Singapore, UAE, India, the UK, the US, and Spain, SAM Corporate empowers organizations globally across various industries including financial services, insurance, manufacturing, retail, hospitality, pharmaceuticals, family-owned businesses, construction and more in building data-driven, responsible, and resilient enterprises for the future.
