

NORDEK to Exhibit its Leading Blockchain Solutions at Singapore Fintech Festival 2023

Singapore, 15th November

NORDEK is excited to announce its participation in the Singapore Fintech Festival, which will take place from November 15th to 17th in Singapore. NORDEK will showcase its innovative solutions at the event, further emphasizing their commitment to the fintech industry and blockchain technology.

As a leader in the blockchain and fintech space, NORDEK is dedicated to creating a user-friendly ecosystem for mainstream web3 payments. NORDEK, powered by an efficient EVM-compatible NRK Network blockchain, caters to both blockchain enthusiasts and newcomers, addressing the diverse needs of conventional businesses seeking to adopt this transformative technology.

NORDEK will be showcasing its dedication to technological advancements by presenting a live demo of Rover.finance, a product within the NORDEK ecosystem. The demo will highlight the latest features of Rover.finance, which is revolutionizing HR solutions in the fintech industry. Additionally, NORDEK will be unveiling new features for NorPay, its borderless payment solution supporting Visa and Mastercard transactions and enhancements that solidify NorPay's position as a user-friendly and secure payment gateway.

NORDEK's presence at the Singapore Fintech Festival is a testament to its commitment to shaping the future of blockchain and fintech. Attendees at the festival can expect to gain insights into the latest advancements in blockchain technology and how NORDEK's solutions are revolutionizing the industry.

"We are thrilled to participate in the Singapore Fintech Festival, as it offers us a platform to connect with fellow innovators and showcase our solutions. Just as fintech enthusiasts value efficiency, security, and innovation in the industry, NORDEK aims to incorporate these qualities into our blockchain solutions. We look forward to engaging with attendees and stakeholders at the festival and are confident that our solutions will be well-received." - Mr. Kishor and Mr. Kashyap, Co-founders of NORDEK.

NORDEK has been recognized by its pioneering work in the blockchain and fintech space, and has recently also taken on the role of Principal Sponsors for the Netherlands Cricket Team during the ICC World Cup Cricket 2023 and upcoming tournaments. This partnership highlights the blockchain's dedication to bridging the worlds of sports and technology.

To bridge the gap between web3 gaming and physical sports the protocol has many plans, one of which was to release an NFT Fan Cup for cricket enthusiasts, aligning the passion of cricket with NFT collectibles. The NORDEK NFT Dropbox consists of 1050 NFTs from each match of the ICC Men's Cricket World Cup 2023 which when minted grant exclusive rewards

like a chance to meet players, a signed jersey, and other unique rewards like an iPhone, NORDEK's crypto debit card - NorPay and many special airdrops.

About NORDEK

NORDEK is a pioneer in blockchain innovation, dedicated to creating a user-friendly ecosystem for mainstream web3 payments.
